The TV Shield E-Series™ enclosures are the most affordable and ultimate solution for integrating a TV into almost any outdoor environment or living space.

Features:

- 3 size ranges for TVs/displays from 36 inches to 65 inches
- 2-year warranty for guaranteed peace of mind
- Front cover lifts off easily for an unobstructed direct view of your screen (cover can be conveniently stored on the hooks at the bottom of the enclosure)
- Extra defense drip edges direct water away from enclosure
- Made of durable ABS plastic with ASA coating for long term and effective strength plus superior UV blocking technology
- All hardware & components are stainless steel or powder coated for ultimate durability against harsh threats like saltwater air
- Included internal full motion swivel mount features depth & height adjustment (with vertical bracket extenders) for perfect placement of screen & rear input accessibility
- Need TV theft protection? The TV Shield E-Series anti-tamper holes are designed to protect the TV from theft or tampering (offers versatility - pair with your preferred external locks)
- All cable pass-through systems are protected against water intrusion
- Provides interior space for installation & protection of cable boxes, media players, amplifiers, etc.
- Flush mounts straight to the wall (no external mount needed)
- Easy assembly and installation

Weatherproof TV & Display Enclosure

Fits 36-65" Televisions & Digital Monitors

The TV Shield E-Series is a cost efficient yet robust alternative to an expensive outdoor TV and offers much higher protection than purchasing an outdoor TV cover made from fabric. This affordable, sturdy, and versatile outdoor electronics cabinet and protective enclosure provides effective rain, wind, UV, and vandal resistance, preventing TV damage and protecting any other hardware or contents it houses. Used to protect TVs, digital displays, Apple TV, Roku or other streaming video players, monitors, modems, mini pcs, cables, and more, the front panel is removable to provide access to any interior content, the TV, and a full-motion mount. The included full-motion interior mount provides the ability to adjust for different seating areas, provides easy access to the back of the TV, and offers perfect viewing no matter how surrounding lighting conditions change.

AFFORDABLE - The TV Shield E-SeriesTM is the most affordable TV enclosure on the market. Rather than purchasing an expensive outdoor television, you can pair our enclosures with almost any TV, making it among the most versatile solutions available.

CONVENIENT - When the TV is in use, hooks at the bottom of the enclosure hold the front panel easily so there is no need to store the front panel somewhere else. When the TV is not in use, the heavy-duty latches keep the front panel tightly in place, so the enclosure provides complete protection from outdoor elements. The TV Shield E-Series makes watching television outside affordable and convenient.

LIGHTWEIGHT - Our units weigh 50-75% less than our competition and are made of lightweight, yet highly durable and long lasting outdoor plastics. Our largest unit only weighs 39lbs and our smallest unit weighs 19lbs.

ROBUST - The TV Shield E-SeriesTM is manufactured with ABS plastics featuring ASA coating for long term and effective strength and UV resistance.

UNIVERSAL - With the ability to fit almost any standard indoor TV or display. The TV Shield E-SeriesTM accommodates televisions from 36 inches up to 65 inches and flush mounts to the wall (no external mount is required).
