Our professional series enclosures are the perfect solution for integrating a TV or digital display into almost any outdoor space.

Features:

- Sleek and aesthetically pleasing picture frame design for integration into any high-end environment.
- Compatible with almost every 42" to 65" TV or digital display. You can pick and choose what technology and features you want in a TV or display.
- 5 year warranty for guaranteed peace of mind.
- Protection equal to IP-55 standards.
- Paintable powder coated steel housing. Custom colors available.
- 60ppi filtered ventilation system with dual or quad thermostatically controlled 120mm fans.
- Hardware and components are stainless steel or powder coated (using our advanced chemical pre-wash system) for ultimate durability against harsh threats like saltwater air.
- Includes high strength shatter-resistant anti-glare polycarbonate front shield.
- Front panel easily removed with our tabbed lift off system.
- High strength security screw system that locks the entire unit and requires the provided tool to access the interior of enclosure.
- ExactSeal triple sealing system for superior dirt & water intrusion prevention.
- All ventilation and cable pass-through systems are protected against bug and water intrusion with 60ppi filters and our ExactSeal system.
- Internal mount with depth & height adjustment for perfect placement of screen and rear input accessibility.
- Ample interior space behind the TV for installation and protection of cable boxes, media players, amplifiers or any other component required.
- The TV Shield PRO Portrait can be used with any external standard VESA mount (floor, ceiling, wall, pole) and can be flush mounted against (not in) the wall with professional installation and separate hardware.
- Built-in commercial-grade power strip (with 12 ft. cord and 15 amp breaker) for additional protection in harsh environments.

Weatherproof TV & Display Enclosure

Fits 42-65" Televisions & Digital Monitors

The TV Shield *PRO Portrait*TM is a weatherproof, secure and robust "hybrid" enclosure made with powder coated steel for ultimate strength and durability. Designed for use with any standard indoor TV or digital display, it is ideal for commercial and professional markets. Developed for outdoor areas, The TV Shield *PRO Portrait*'s proprietary "Quick InstallTM" system is faster to install and maintain than other metal enclosures. The front panel can be easily removed with our tabbed liftoff system. The entire unit is locked down with our security screw system that requires a special tool to remove. The enclosure comes with a thermostatically controlled and filtered air circulation system. The TV Shield *PRO Portrait*TM professional-grade TV and display enclosure includes standard anti-glare polycarbonate protective front shields (ultra-clear available) rather than safety glass.

ROBUST - The TV Shield *PRO Portrait*'s standard anti-glare cover (shield) is manufactured using shatter-resistant polycarbonate. The rear case is built using highly durable, powder coated steel. The TV Shield *PRO Portrait*TM also offers some of the largest digital display and TV case sizes on the market.

SLEEK - Imagine a Ferrari with the durability of a Tank. The TV Shield *PRO Portrait*TM boasts strength, usability and aesthetic taste (and can even be painted custom colors), making it the most desirable high-end metal TV and digital signage case available.

UNIVERSAL - With the ability to fit almost any standard indoor TV or display, The TV Shield *PRO Portrait*TM can accommodate units from 42 inches up to 65 inches. Our proprietary patent-pending design mounts using any universal VESA mounting system.

FUNCTIONAL - The TV Shield *PRO Portrait*TM opens easily with our tabbed lift off system, allowing for easy access to the inside of the case. Even more innovative, this enclosure features an internal mount, which allows for quick access to the back of the TV or display and rear inputs for maintenance.

MADE IN THE USA - The TV Shield *PRO Portrait*TM enclosure was designed, engineered and is manufactured in the USA, from top quality materials.
