The Ultimate Indoor TV & Display Protection

TOUCH SCREEN Enclosures for 40-85" TVs & Displays

As of 2022, PEC enclosures protect TVs & digital displays in 34,000+ residential & commercial locations in 50 countries worldwide.

Damage Protection

Theft & Tamper Protection

Our professional series touch enclosures are the perfect solution for integrating a interactive TV or digital display into almost any indoor space.

The TV Shield PRO Lite Touch Features:

- Incredibly accurate and responsive touchscreen technology that includes 2 point touch (can upgrade to 10 touch points for Windows and 4 touch points for Mac) - touch capability can work with both non-touch and touch screen TVs or digital signs
- Compatible with almost every 40" to 85" TV or digital display (you can choose a TV with the technology and features you want)
- 5 Year warranty for guaranteed peace of mind
- Paintable heavy-duty and thick yet lightweight powder coated aluminum enclosure
- Sleek and stylish picture frame design for areas where looks and aesthetics are crucial
- Enclosure designed with minimal visible mounting hardware for a crisp look
- Ultra-quiet air circulation (120 volt 35 CFM ultra-quiet fan) and heat exhaustion system
- High strength shatterproof ultra-clear Lexan[®] polycarbonate front shield (anti-glare is available)
- Lightweight design (starting at only 40 LBs)
- Extremely easy installation process (can even be quickly installed over an existing mounted TV)
- Multiple secure easy access cable pass-through points (eliminates need to relocate power supply)
- Anti- small object entry design
- Advanced security screw system for ultimate TV and display protection
- Anti-ligature (slope-top) available for enhanced safety
- High strength mounting hardware for ultimate security to prevent tampering and removal
- Also offers protection for media players and other electronic devices being used with the TV

TOUCH SCREEN Indoor TV & Display Enclosure

Fits 40-85" Televisions & Digital Monitors

The TV Shield PRO Lite Touch is a secure and durable touch screen digital display and TV enclosure that is made in the USA. We have combined The TV Shield PRO Lite enclosure and our IR touch frame to offer the best solution for touch screen needs. With The TV Shield PRO Lite Touch you can use any standard off the shelf flat screen TV, completely enclose it and turn it into a protected interactive touch screen. Featuring extremely tough metal housing that encases the TV and a high strength shatterproof ultra-clear Lexan® polycarbonate front shield, this innovative interactive display solution eliminates the risk of having to replace an expensive touch screen TV or interactive digital signage display if the screen breaks.

The TV Shield PRO Lite IR Touch Frame:

Our touch frame can turn almost any computer imaged surface into a touch interactive device. Examples of "computer imaged surface" include flat panel displays (LCD, LED, plasma), all-in-one PCs, projection screens, video walls, whiteboards or white walls - up to 200" diagonally. It is compatible with Windows, Mac, Linux and Android.

Embedded IR sensors inside the touch frame emit and receive invisible infrared light beams in front of the computer imaged surface. Whenever your finger or an object breaks through this light grid, it is seen as a touch point which is same as a left mouse click. Your touch can also perform all the standard tablet gestures and multi touch functions

MADE IN THE USA - The TV Shield PRO™ enclosure was designed, engineered and is manufactured by King Precision Solutions, in the USA, from top quality materials.
