The Ultimate Indoor TV & Display Protection

**P**rotective  
**E**nclosures  
**C**ompany™

**TOUCH SCREEN AVAILABLE!** Enclosures for 40-85" TVs & Displays

**As of 2024, PEC enclosures protect TVs & digital displays in 43,000+ residential & commercial locations in 55 countries worldwide.**

## FEATURES:

- Universal compatibility with most 40" to 85" TVs or digital displays (you can choose a TV with the technology and features you want)
- 5 Year warranty for guaranteed peace of mind
- Paintable heavy-duty and thick yet lightweight powder coated aluminum enclosure
- Proprietary sleek and stylish picture frame design for areas where looks and aesthetics are crucial
- Enclosure designed with minimal visible mounting hardware for a crisp look and extensive tampering resistance
- Ultra-quiet thermostatically controlled air circulation (120 volt 35 CFM ultra-quiet fans) and heat exhaustion system
- High strength shatterproof ultra-clear Lexan<sup>®</sup> polycarbonate front shield (anti-glare and clear replacement shield available)
- Lightweight design (starting at only 40 LBs)
- Extremely easy, proprietary "Quick Install™" installation process which can mount over/around an existing TV or display
- Multiple, secure, easy access cable pass-through points (eliminates need to relocate power supply)
- Anti-small object entry design for institutional environments
- PEC's proprietary "Maximum Security™" screw system for maximum TV/display protection and security
- Anti-ligature (slope-top) available for enhanced safety
- High strength mounting hardware for enhanced security, to prevent tampering, removal and theft
- Also offers protection for media players and other electronic devices being used with the TV
- Touch screen available - make any standard TV an enclosed and protected touch screen TV

**Damage Protection**

**Theft & Tamper Protection**

**Our professional series enclosures are the perfect solution for protecting a TV in almost any location where tampering or vandalism are concerns.**

## Protective TV & Display Enclosure

Fits 40-85" Televisions & Digital Monitors

The TV Shield PRO Lite<sup>®</sup> is a low cost protective TV enclosure built using lightweight aluminum for ultimate strength and durability. Perfect for indoor TV protection, or outdoor applications that need strong screen defense rather than full weather-proofing, this cover is ideal in high traffic buildings, institutional environments, schools, hospitals and more. The unit's base frame bolts to the wall, while the enclosure attaches to the base frame using a high strength security screw system for the ultimate defense against removal from the wall (this is an open back design). The TV Shield PRO Lite<sup>®</sup> features .177" thick ultra-clear shatterproof polycarbonate for the front shield and a .25" thick powder-coated aluminum frame that can mount over an existing TV. This protective TV and digital display enclosure will hold up in the roughest and toughest environments including federal correctional institutions.

**ROBUST** - The TV Shield PRO Lite's ultra-clear cover (shield) is manufactured using shatterproof Lexan<sup>®</sup> polycarbonate, the same material used to produce bulletproof glass (much better than the safety glass used in competing products), for the ultimate equipment protection. The extremely durable housing is composed of lightweight and long-lasting .25" aluminum.

**SLEEK** - Proprietary, patent-pending design. Imagine a Ferrari with the durability of a Tank. The TV Shield PRO Lite<sup>®</sup> boasts strength, usability and aesthetic taste (and can even be painted custom colors by buyers), making it the most desirable high-end metal digital display case available.

**UNIVERSAL** - With the ability to fit almost any standard indoor TV or display, The TV Shield PRO Lite<sup>®</sup> can accommodate televisions from 40 inches up to an industry-first 85 inches.

**CUSTOM** - The TV Shield PRO Lite<sup>®</sup> sizes range from 40" to an industry-first 85". Custom units can even be produced for video wall protection.

**FUNCTIONAL** - The TV Shield PRO Lite<sup>®</sup> offers our proprietary "Quick Install™" system (it can easily mount over an existing TV). The TV Shield PRO Lite<sup>®</sup> is the ideal protection for TVs and displays in high traffic locations.

**MADE IN THE USA** - The top quality and heavy-duty The TV Shield PRO Lite<sup>®</sup> TV and digital signage enclosure was designed, engineered and is manufactured at the King Precision Solutions manufacturing facility located in Erie, PA.
