Protective
Enclosures
CompanyTM

Enclosures for 24-32" TVs & Displays

As of 2025, PEC enclosures protect TVs & digital displays in 47,500+ residential & commercial locations in 58 countries worldwide.

FEATURES:

- Supports any size TV or monitor up to 32"
- 25 degree sloped top design and flush mounting ensure non-looping and quick slip to reduce any chance of the enclosure being a ligature point
- Hex pin in security screws requiring a special tool ensuring only authorized employees are able to access the enclosure or remove the front frame
- Open back design allows all cabling and power to be run directly to the TV or monitor. This feature also allows for the use of a flat or tilt mount depending on your application
- Shatterproof polycarbonate front viewing panel protects against major impacts and tampering
- A full one piece metal wall frame allows for easy installation and provides higher tamper resistance than other products on the market
- Anti small object ventilation on either side of the unit to prevent heat build up and keep internal electronics at an optimal temperature
- The TV Shield PRO Lite 24-32" Anti-Ligature enclosure is lightweight and easy to install
- Slim design keeps the enclosure only 6" off the wall but also allows for ample interior space to house ancillary electronics like cable boxes or streaming TV devices
- Manufactured using industrial grade powder coated steel for ultimate durability, longevity, and tamper resistance
- Radiused edges and corners, along with the polycarbonate front panel and security hardware address Joint Commission (JCAHO) standards
- Custom colors and antimicrobial powder coating are available for facilities that require specific finishes
- High strength wall mounting hardware included to prevent tampering and removal
- Made in the USA

Anti Ligature Protective TV & Display Enclosure

Fits 24-32" Televisions & Digital Monitors

The TV Shield PRO Lite 24-32" Anti-Ligature Enclosure is designed for use in environments where anti-ligature requirements exist to prevent intentional or accidental self-harm to patients, staff, or others. Application examples are jails, prisons, hospitals, mental institutions (behavioral facilities), correctional facilities, care homes, schools, transition homes, and children's nurseries. This heavy-duty enclosure supports any size TV or display up to 32" and flush-mounts to the wall with high-strength hardware, creating a secure and streamlined appearance. Its open-back design allows for simple integration of cables, mounts, and auxiliary equipment, while maintaining a tamper-resistant installation. The front viewing panel is made of .250" thick shatterproof polycarbonate, delivering excellent screen visibility while protecting against high-impact damage and vandalism.

ROBUST - The TV Shield PRO Lite Anti Ligature's ultra-clear front panel (shield) is manufactured using shatterproof polycarbonate, the same material used to produce bulletproof glass (much better than the safety glass used in competing products), for the ultimate equipment protection. The extremely durable housing is composed of industrial-grade powder-coated steel.

SLEEK - Proprietary, patent-pending design boasts strength, usability, and aesthetic taste. Custom color variations are available on bulk orders.

UNIVERSAL - With the ability to fit almost any standard indoor TV or display, The TV Shield PRO LiteTM Anti Ligature Enclosure can accommodate displays from 24 inches up to 32 inches.

FUNCTIONAL - A one piece lightweight metal wall frame allows for easy installation and provides higher tamper resistance than other products on the market. This enclosure is the ideal protection for TVs and displays in mental healthcare facilities and correctional institutions.

MADE IN THE USA - The top quality and heavy-duty The TV Shield PRO LiteTM Anti-Ligature TV and digital signage enclosure was designed, engineered, and is manufactured in the USA.

LIMITED PRODUCT WARRANTY

5 Year Limited Warranty on housing, polycarbonate front cover/shield, and on product failure or QC defects.
